## Formers that enhance production efficiency:

- Proprietary former design that allows degassing valves to pass over the former without damaging the valve or film
- Sharp corner design makes the crisp creases on all four corners of a finished bag
- Stainless steel construction
- Dust extraction options
- Vacuum ports
- Former plating options for extended service life
- Exhaust baffles
- Block bottom extensions
- Track for degassing valve
- 3mm thick filler tubes

## BAG TYPES:

*FLAT BOTTOM*

*GUSSETED*

*PILLOW*
