

APPROVED OEM MANUFACTURER OF ISHIDA FORMERS

Since 1975, Formers International's manufacturing, engineering and administrative staff have extensive experience building formers that exceed the requirements of most OEM packaging machines.

Precision former testing

All formers are tested on an Ishida Atlas rotary jaw machine. The quality check includes fitting each former to a test jig supplied by Ishida Japan, verifying positions of backseal and belt flats.

Approved ISHIDA manufacturer

Precision bag forming assemblies for all Ishida machines, including Astro, Atlas, Apex and Inspira
