

FAMILY OWNED, FAMILY BUILT, FORMING PARTNERSHIPS WORLDWIDE.

At Formers International it's all about forming partnerships. We strive to form and grow partnerships by continually improving our product quality and by using our Core Values to provide excellent customer service.

By creating bag forming sets that are guaranteed to perform perfectly every time, we turn first-time customers into loyal partners. These partners give us a direct line into the ever-changing needs of the packaging industry and enable us to constantly innovate, something we have been doing since 1975. This innovation allows our products to improve and get stronger, just like the bonds we form with our global clients.

SINCE 1975...

We've made a commitment to build formers that fit perfectly every time. At Formers International, we are shaping the future with quality, innovation, and a commitment to your success.

We guarantee perfection in all we do, no matter the size, shape or complexity of the formers we build! Your satisfaction sets the standard for our performance.

TRUSTED BY OEMs WORLDWIDE TO FABRICATE THEIR FORMERS.

ISO 9001:2015 CERTIFIED

We are proud to announce that Formers International is an ISO 9001:2015 certified company.

We will continue to use our Quality Management System to achieve the highest level of customer satisfaction.

CONCEPT TO REALITY

The ability to engineer and hand-fabricate each bag forming assembly in-house allows us to design and build custom solutions for virtually any application.

Precision and fast turnaround are two of the things we pride ourselves on most at Formers International. Everything is made in-house with innovative technologies that include laser cutting, laser welding, waterjet, robotic seam welder, CNC turning center, and CNC machining center that can deliver a precise former in less time.

INNOVATION THAT IS GLOBAL

A rich history in former design and custom manufacturing produces innovations that solve the most demanding challenges in the packaging industry. Formers International understands the need to keep production lines running efficiently and continually demonstrates global leadership by setting the standard for building formers that are optimized for speed, performance and product transfer.

EZ ALIGN

FAST, SAFE AND PRECISE INSTALLATION

When machine constraints allow, every former is built with patented EZ Align technology. EZ Align is operator approved and tested by top international food producers. It is one of the packaging industry's fastest installation solutions.

- Disassembles easily for cleaning
- Perfect tube alignment to prevent film pinching and snagging
- Eliminates guesswork on former alignment
- Consistent film clearance
- Significantly reduces downtime during changeover

ULTRALYTE

LIGHTWEIGHT YET DURABLE

Standard formers can be heavy, sometimes weighing up to 70 pounds. Ultralyte formers are lighter, just as durable and even easier to handle. Strategic reduction in component part mass combined with lightweight materials produces a solution that keeps production moving.

- Weighs up to 50% less than a standard former
- Easier to load, unload and transport
- Durable hard anodized finish
- Promotes operator safety
- Minimizes damage due to mishandling

INDUSTRY FIRSTS

Formers International was the first former manufacturer to patent real-world solutions that keep packaging lines running smoothly. Reduced downtime and quicker changeovers maximize plant efficiency.

- Adjustable film roller assembly
- Ultralyte lightweight former
- Inlet Seal (patent pending)
- Lavation station

- Disposable wear strips to extend belt life
- EZ Align former
- Adjustable former storage rack

STORING MULTIPLE FORMERS AND FILM ROLLS?

PROTECT YOUR INVESTMENTS

We can fabricate a custom storage solution to fit your workspace. From film and former transport carts, to film and former storage racks, customization is our specialty.

FORMER STORAGE RACKS

- Modular design for multiple storage configurations
 Stainless steel construction
- Safe and easy storage for all formers
- Prevent downtime caused by damaged formers
- Custom sizes and configurations available
- Mobile or stationary options
- Sanitary design
- Machine specific mounting shelves

FILM CARTS AND FORMER TRANSPORT CARTS

- Safely move heavier film and formers from storage areas to the packaging line
- Carts can be used for transportation and washdown

- Doubles as a storage cart
- Small and large options available
- Move up to 3 film rolls at a time

MORE THAN FORMERS

ACCESSORIES

Some parts wear out before your former does. We can provide all the accessories needed to keep packaging lines running efficiently.

FORMER REPAIR

Evaluation of the complete forming set to determine parts that can be repaired or re-purposed thereby extending service life.

DIMENSIONAL PLANT AUDITS

Complete assessments of packaging lines to obtain a dimensional profile that accelerates the ordering process.

PACKAGING CONSULTATIONS

Recommendations for your specific application including challenging products, complex bag types, environmental constraints and former storage options.

ENGINEERING AND TECHNICAL SUPPORT

In person and on-line support to troubleshoot performance issues regardless of the machine or former manufacturer.

IN-PLANT TRAINING

Training on proper former maintenance and change-over to ensure maximum performance with minimal down time.

CUSTOM FABRICATION

Precision made ancillary parts for packaging lines including hoppers, drop tubes, transfer cutes and many more. The possibilities are endless with in house technology such as laser cutting, laser welding, CNC machining, waterjet cutting and media blasting.

WE HAVE THE EXPERIENCE

Since 1975, our manufacturing, engineering and administrative staff have extensive experience making bag formers that exceed the requirements of most OEM packaging machines. We have the global reach to serve our partners on a local scale.

USA | MEXICO | EUROPE | WORLDWIDE

WE HAVE THE TEAM

Our team makes the ordering process simple and easy, with experience in:

EXPEDITED ORDERS | TESTING AND INSPECTION REQUIREMENTS INTERNATIONAL TECH SUPPORT | HIGH VOLUME ORDERS

LED BY OUR CORE VALUES

Through our Core Values, we will work together to maximize the customer experience at Formers International.

Taking the necessary measures to be leaders within our company and industry

Working together to achieve continuous improvement through constructive feedback

Holding ourselves accountable through individual responsibility

Maintaining the highest standard in all that we do to exceed the expectations of our customers

Transparency as a result of honesty within ourselves and our customers

Growth and development through effective communication in our daily operations and customer interactions
