

Formers
INTERNATIONAL

FAMILY OWNED, FAMILY BUILT, FORMING FAMILIES WORLDWIDE.

At Formers International it's all about our former family. Every partnership starts with the quality of our product and ends with becoming a member of our Formers' family. Let's face it, family built quality formers are what you need to keep your lines running smoothly. By creating form-fill-and-seal assemblies that are guaranteed to perform perfectly every time, we turn first-time customers into loyal partners who we call family. These partners give us a direct line into the ever-changing needs of the packaging industry and enable us to constantly innovate; something we have been doing for more than 40 years. This innovation means that our product is always improving and getting stronger, just like our partnerships with our Formers' family. **FORMERS.COM**

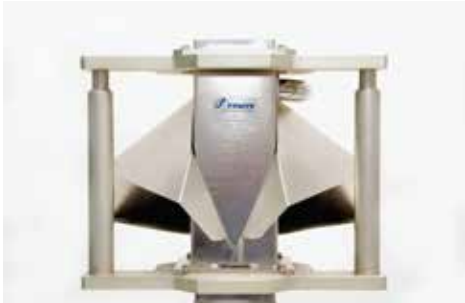

MORE THAN FORMERS

NEW FORMERS

We offer a range of products that recognize that not every need is the same.

REFURBISHMENT

Save replacement cost and extend the life of your former with our refurbishment services.

CUSTOM RACKS

Storing multiple formers? We can custom fabricate former racks for as few as one and as many as ten formers. These racks can be made to be stationary or mobile to suit any workspace.

CUTTING

With over 40 years in custom fabrication, we have developed a diverse capability in tight tolerance sheet and plate cutting.

FABRICATION

Precision and fast turnaround are two of the things we pride ourselves on that is why we run a precision lasercutter from Mazak. Fabrication takes place with our sister company ORBX Fabrication. Learn more at orbxfabrication.com

INNOVATION THAT IS GLOBAL

Our technological advancements have been innovations that solve our customers' needs. We are worldwide industry changers, and it shows. We care about your production lines and as a custom fabricator we are equipped to accommodate a wide variety of customer preferences. We care about your bottom lines, all processes are performed in-house allowing optimal cost control and quality. Innovation with our patented products and our EZ Align technology which allows for fast, safe, and precise installation every time.

TRUSTED BY OEMS WORLDWIDE TO FABRICATE THEIR FORMERS.

EZ ALIGN

FAST, SAFE AND PRECISE INSTALLATION

When design allows, every former we ship comes with our patented EZ Align™ technology built-in. It's the Formers International standard. EZ Align is operator-approved and tested by top international food producers. It is one of the packaging industry's fastest installation solutions.

Disassembles easily for sanitation

Perfect alignment to prevent film pinching, snag, or performance issues

2-piece construction

Eliminates guesswork on former alignment

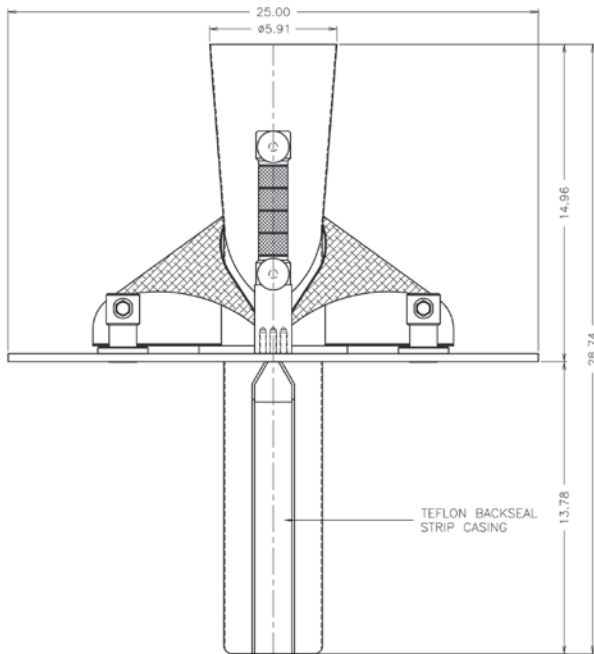

Consistent film clearance

Significantly reduces downtime for former changes and cleaning

EZ ALIGN IS OPERATOR - APPROVED AND TESTED BY TOP INTERNATIONAL FOOD PRODUCERS.
IT IS ONE OF THE PACKAGING INDUSTRY'S FASTEST INSTALLATION SOLUTIONS.

We're better together. Formers for every industry.

CONCEPT TO REALITY

Because we engineer and hand-fabricate each former assembly in-house, we can design and build custom solutions for virtually any application. Precision and fast turnaround are two of the things we pride ourselves on most at Formers International, which is why we run a precision lasercutter from Mazak—and can deliver a more precise former in less time.

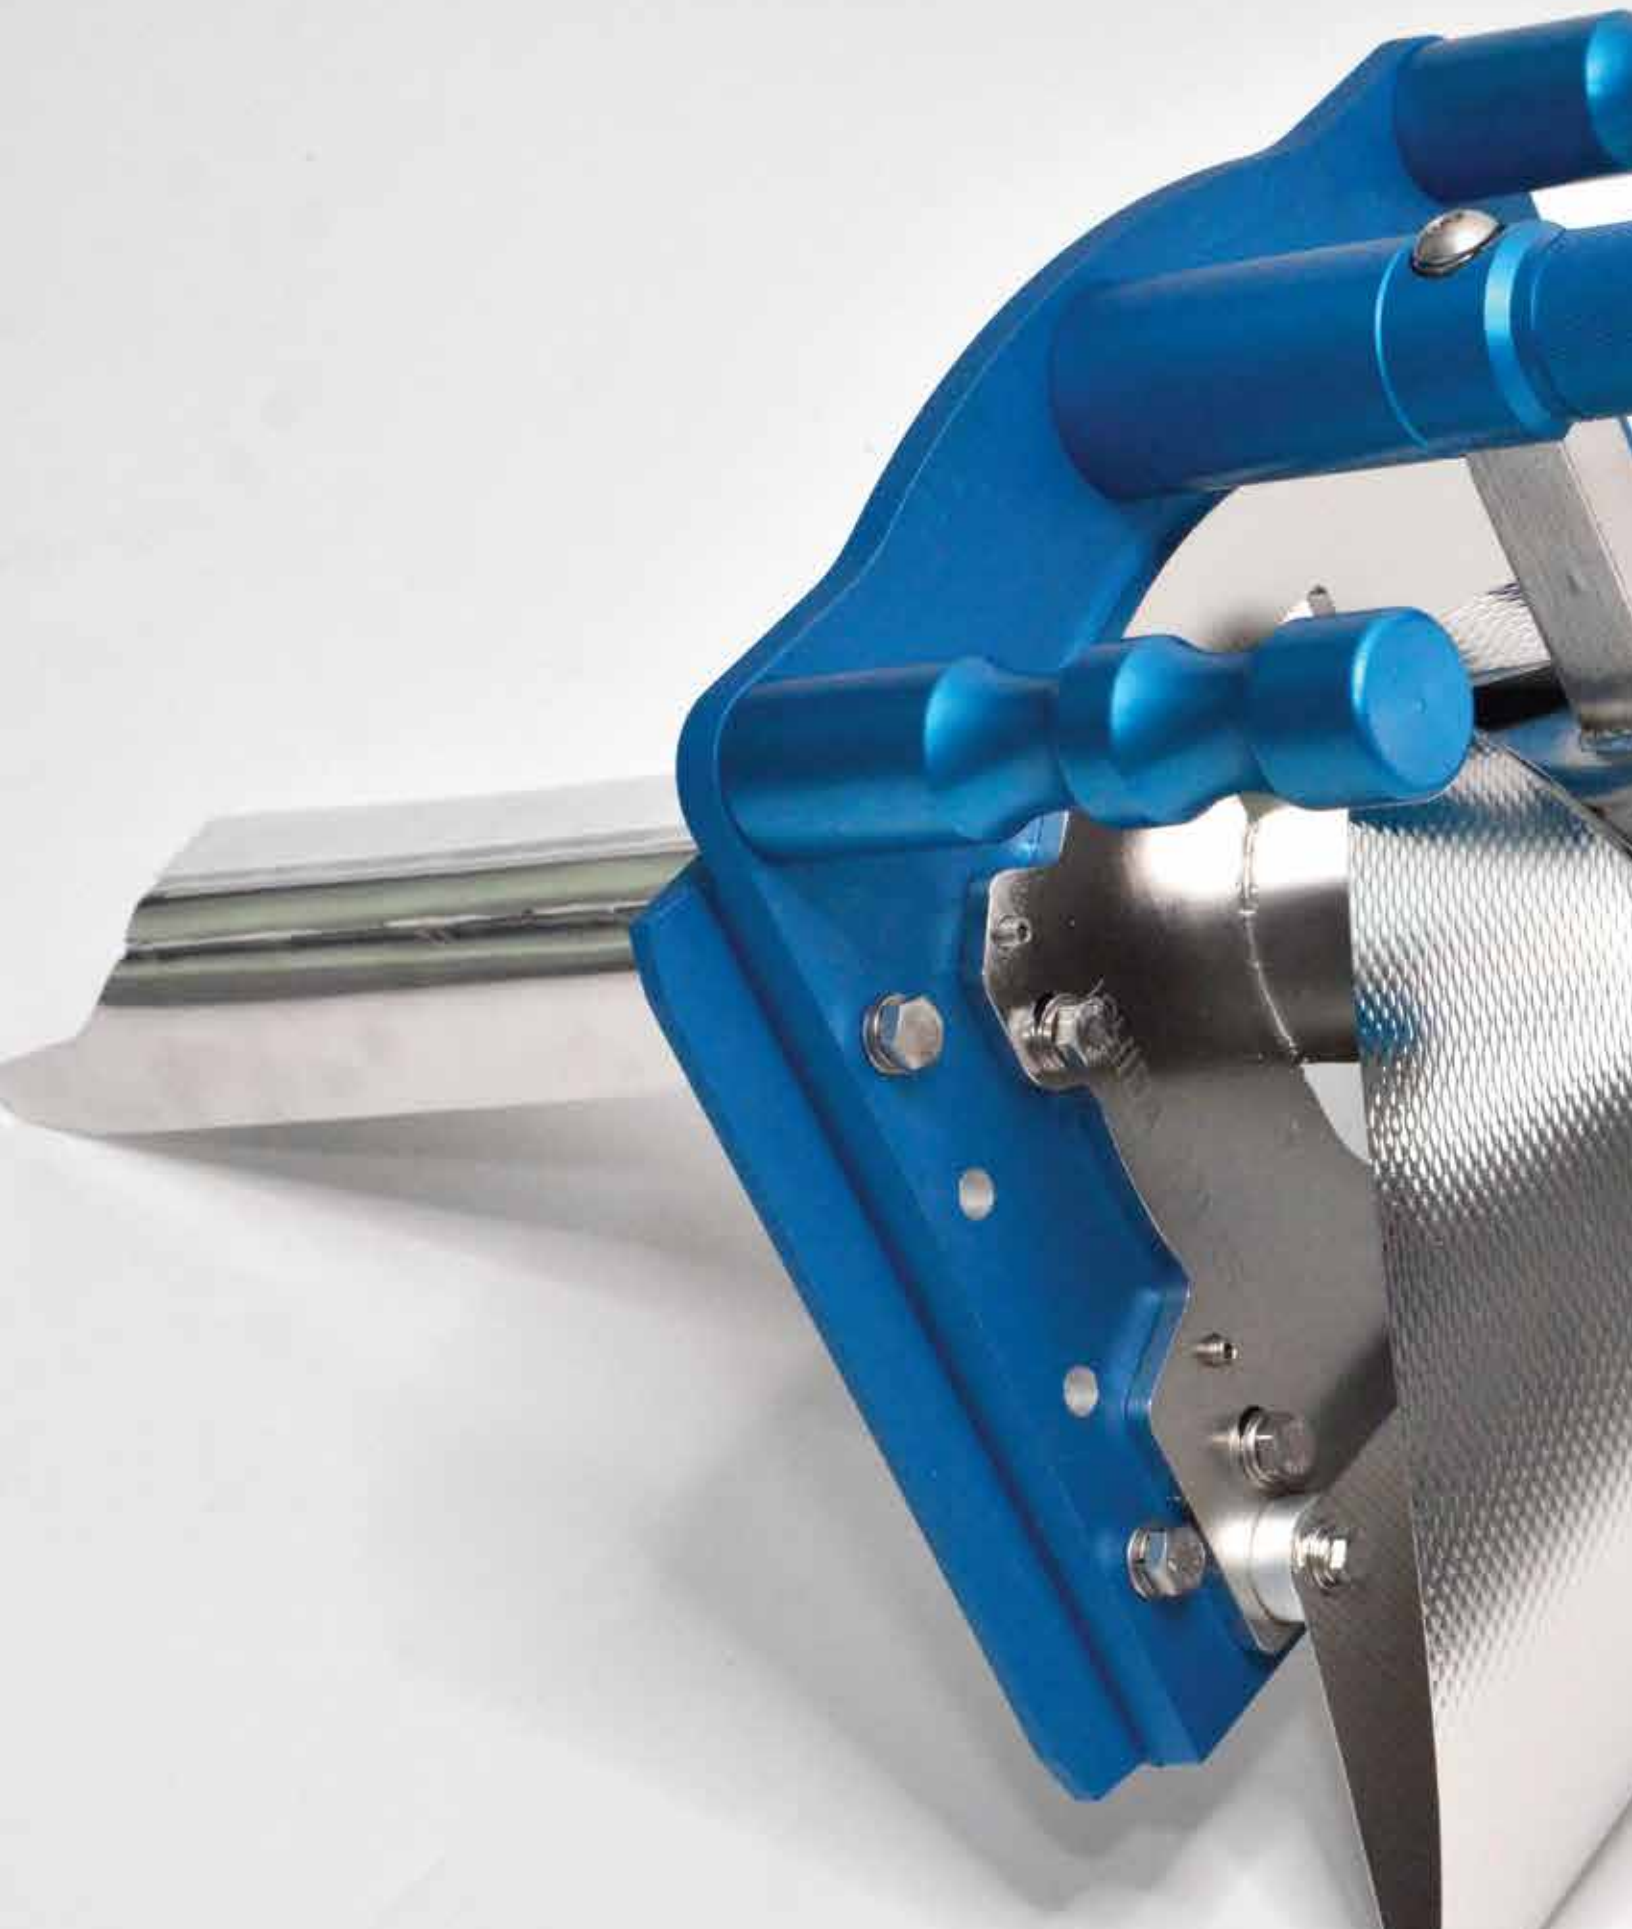

Since 1975...

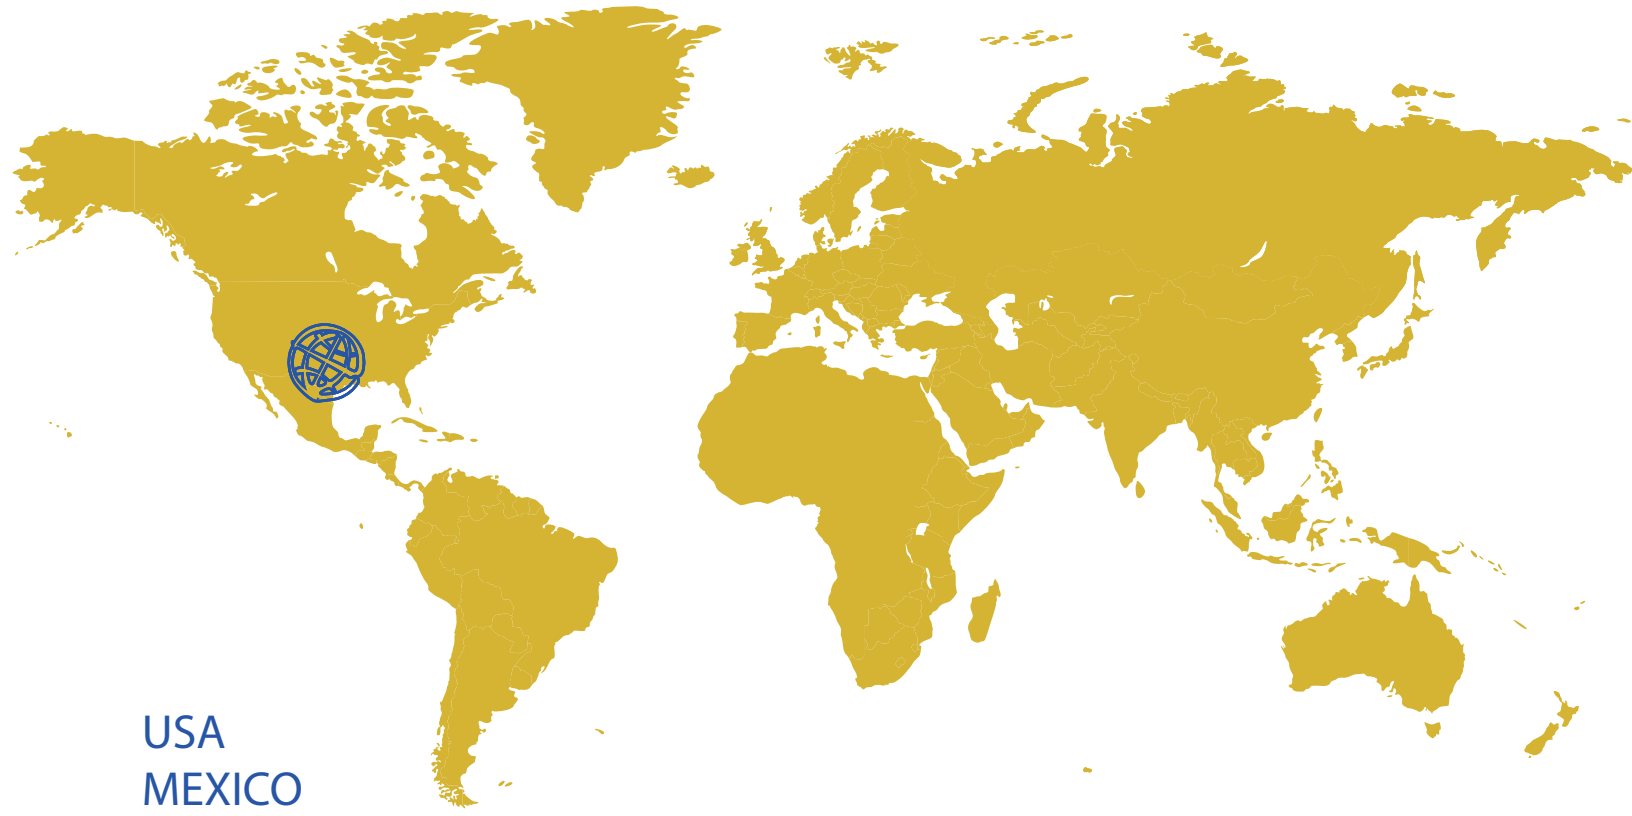

We've made a commitment to build formers that fit perfectly every time. At Formers International, we are shaping the future with quality, innovation, and a commitment to your success. We guarantee perfection in all we do, no matter the size, shape or complexity of the formers we fit for our customers! Your satisfaction is a measure of our performance.
